

Define Problem Statements Template

Ideation Phase

Author: **KADALI GEETHA SRAVYA** | Team ID: **PNT2025TMID_COSMETICS_01**

1. Problem Statement Definition

Consumers struggle to navigate thousands of cosmetic products due to fragmented pricing, unclear skin-type suitability, and lack of visual brand performance metrics.

2. Impact & Business Relevance

Without structured analytics, retailers miss opportunities to target under-served skin categories, and consumers purchase unsuitable products.

3. Solution Objective

Develop 'Cosmetic Insights: Navigating Cosmetics Trends and Consumer Behavior with Tableau' to present clear KPIs, calculated fields (ALL SKIN TYPES COUNT), and interactive Tableau stories.
