

Data Flow Diagrams & User Stories

Project Design Phase

Author: KADALI GEETHA SRAVYA | Team ID: PNT2025TMID_COSMETICS_01

1. Data Flow Diagrams (DFD)

- Level 0: User -> Web App -> Flask Backend -> Cleaned Dataset / Tableau Embed.
- Level 1: Data Ingestion -> Cleaning & Transformation -> Calculated Field Generation -> Visual Analytics Engine.
- Level 2: Interactive Filtering -> Category & Skin Type Query -> Recommendation Rendering.

2. Agile User Stories

- US-01: As a user, I want to filter products by my skin type so that I only see suitable products.
- US-02: As an analyst, I want to view brand price distribution so that I can identify luxury vs budget trends.
